Software Engineer, Android

LinkedIn: [linkedin.com/in/mbarker99](https://www.linkedin.com/in/mbarker99) | Portfolio: mbarker99.github.io

Summary of Qualifications

- **Software Engineer** with **4+ years of hands-on Android development** and **2+ years of professional experience**.
- Master of **Kotlin** and **Java**, as well as **Jetpack Compose**, **clean architecture**, and **MVI/MVVM design patterns**.
- Experienced with **REST API consumption**, local databases through **SQLite/Room**, and **UI state management**.
- Comfortable in dev environments with **CI/CD pipelines**, **large user bases**, and **Play Store deployments**.
- Additional background as an **IT Technician** adds understanding of hardware, networking, and troubleshooting.

Work Experience

 IT Technician Southcrest Homes May 2024 - Present	- Installed and maintained a NAS device for central file storage and sharing. - Onboarded and trained new users on file access, permissions, and best practices. - Provided hardware, software, and networking technical support. - Managed computer, networking, and peripheral upgrades. Technologies: Windows 11, NAS, LAN/WAN, Networking, Hardware Maintenance
 Android Developer <i>Verizon (Contract)</i> Sep 2023 - May 2024	Verizon Home App - Developed a Jetpack Compose app with Kotlin and MVVM. - Used CI/CD pipelines with 1000+ beta testers. - Managed Google Play Store deployment with 50,000+ downloads. - Integrated REST APIs for speed tests, parental controls, and notifications. - Built visualizations for smart home and motion sensing data from IoT devices. - Utilized libraries like LeakCanary to find and secure memory and data leaks. Technologies: Jetpack Compose, Retrofit, Dagger / Hilt, StateFlow
Android Developer <i>Verizon (Contract)</i> Mar 2022 - Sep 2023	Smart Display - Built 14+ apps using Kotlin and MVVM architecture. - Led over-the-air (OTA) module development for app update management. - Managed both Alexa and proprietary Verizon Voice Assistant intents. - Built Bluetooth Low Energy (BLE) cross-device communication features. - Integrated streaming, video calling, and other third-party multimedia services. Technologies: XML, Retrofit, Broadcast Receivers, Work Manager, Coroutines

Skills

Languages & Tools: Kotlin, Java, C++, XML, Gradle

Development: Android SDK, Android Studio, Jetpack Compose, Dagger/Hilt, Koin, Rest APIs, Room, Firebase, Clean Code, Android Jetpack, MVI, MVVM, MVP, Navigation, Flow, Glance (Widgets), DataStore, SQLite, LiveData, StateFlow

Testing: Mockito, JUnit, Espresso

DevOps: Git, Github/Gitlab, Bitbucket CI/CD, Jenkins

Other Relevant Projects

EchoJournal

Voice Memo Journaling App

- Designed using **Jetpack Compose** and **Clean Architecture** best practices.
- Integrated audio recording/playback with mood tagging.
- Used **Room** for local data persistence and **Koin** for dependency injection.
- Created a home screen widget for quickly recording messages from outside the app.

Technologies: Jetpack Compose, Koin, MediaRecorder, Room, Glance

NoteMark

Offline First To-Do App

- Integrated **authentication** with proper rate handling, socketing, SSL pinning, access tokens, and refresh tokens.
- Followed **offline-first** principles, storing notes in both a remote server and local database.
- Provided support for multiple screen sizes and aspect ratios.

Technologies: Jetpack Compose, Koin, Room

Portfolio

Web-based Resume and Portfolio

- Used **Github Pages** to design a portfolio website for myself (link above).
- Used **ReactJS** and **TailwindCSS** to design an Android “emulator” to imitate Material UI.
- Integrated a contact form with email delivery using a form handling service.
- Integrated **Google Analytics** to track site traffic and user engagement.

Technologies: ReactJS, Tailwind CSS, node, Google Analytics

Snoozeloo

Alarm Scheduler and Manager

- Implemented features to **schedule, manage, and trigger alarms**, including recurring and one-time events.
- Utilized **Room** to ensure functionality after app closures or device restarts.

Technologies: Jetpack Compose, AlarmManager

Education

Bachelor of Science, Computer Systems Engineering

Minor: Computer Science

University of Georgia - Athens, GA

Aug 2017 - Dec 2020
