Android Engineer

Location: Statesboro, GA 📍

Summary

- **2 years** of experience building native Android applications using **Kotlin** and **Java**.
- Proficient in **MVI**, **MVVM**, and **MVP** design patterns and **Modern/Clean architecture**.
- Expert in **Jetpack Compose**, **XML views**, and **Jetpack Libraries (ViewModel, Navigation, LiveData)**.
- Skilled in **REST API** integration using **Retrofit**, and **Ktor** and local data persistence (**RoomDB**).
- Worked with **Dagger2/Hilt** and **Koin** for dependency injection.
- Experienced with **Kotlin Coroutines** and **Flow** for async operations.
- Experienced with **Firestore** services including **Realtime Database**, **Authentication**, and **Messaging**.
- Managed **Google Play Store deployment**, ensuring compliance and optimization for performance.
- Familiar with **Git**, **CI/CD** pipelines, and **Agile** methodologies.

Work Experience

Android Developer

Verizon - Remote (Based in Irving, TX)

Home Network Management App

Sep 2023 - May 2024

- Developed a **Jetpack Compose** app with **Kotlin** and **MVVM**.
- Worked with a test base of **1000+ users**.
- Interfaced with a **multi-module** app structure.
- Integrated **REST APIs** for speed tests, parental controls, and alerts.
- Incorporated **IoT** tech to display smart home data and motion history.
- Managed **Google Play Store deployment** with **50,000+ downloads**.
- Optimized **UI/UX** and **memory usage** to enhance app performance.
- Refactored legacy code to align with modern Android standards.

Junior Android Developer

Verizon - Remote (Based in Irving, TX)

Smart Display

Mar 2022 - Sep 2023

- Built 14+ apps using **Kotlin** and **MVVM** architecture.
- Designed **UI/UX** with **XML view components**.
- Led **OTA** module development for app update management.
- Integrated **REST APIs**, **WorkManager**, and **Coroutines**.
- Utilized **Broadcast Receivers** for inter-app communication.
- Managed **Alexa** and Verizon Voice Assistant intents.
- Utilized **BLE**-based cross-device communication.
- Integrated streaming, video calling, and other multimedia services.

Education

Bachelor of Science

University of Georgia - Athens, GA

Computer Systems Engineering

Minor: Computer Science

Skills

Languages

- Java
- Kotlin

Tools

- Android SDK
- Android Studio
- MVI, MVVM, MVP
- Clean Architecture
- Jetpack Compose
- XML View Components
- Dagger2 / Hilt
- Koin
- Retrofit
- Ktor
- Volley
- RoomDB
- Coroutines
- RxJava
- Material Design
- Firebase
- Google Play Services

Collaboration & DevOps

- Git / Github
- JIRA
- Gradle
